Designed Plant Communities

2024 NNLA WINTER WORKSHOP

Thursday, March 14, 2024
UNL East Campus
Keim Hall, Room 150
Lincoln, NE

This workshop will explore the beauty of arranging plant materials with both ecology and aesthetics in mind. Topics will include a quick review of planting design elements, then dive into advanced planting models, then we'll explore designed plant communities. Some basic graphics of plant symbols, drawing techniques for showing plant layers, plus a bit about drawing in elevation will also be covered. This is a hands-on workshop, so please come prepared to learn, draw, design and have fun.

LISA NUNAMAKER

Award-winning designer, artist and educator, Lisa Nunamaker is the creator of the company, Paper Garden Workshop, a spirited place to learn garden design and landscape graphics. Lisa uses her illustration skills to teach these beautiful topics to budding designers around the world. Lisa also holds degrees in landscape architecture, is registered in the state of Iowa, taught landscape design at Iowa State University for over 12 years and currently serves on the Association of Professional Landscape Designers National Board of Directors.
