

LANDSCAPE INSTALLATION LEADER

You have the passion, skill, energy and experience to create high quality, beautiful landscapes. You understand that sustainable results in a landscape are only achieved when a strong design is coupled with expert installation. Fundamental to a great installation is a team committed to doing things right and efficiently, starting with the team's leader. Dirt work is done correctly, bed lines are smooth and flowing, and plant spacing is consistent.

U S

Mulhall's, now in its 58th year, is one of the largest independent home and garden retailers and landscapers in the Midwest. Our staff works hard blurring the lines between the natural and the built—and just making things beautiful. And we have fun doing it. Come see what you can achieve at Mulhall's!

A DAY IN THE LIFE

You would lead a team performing landscape installation. The tasks performed would be in accordance with the work sold and the time of year. Projects would likely include a mixture of softscape, hardscape, and maintenance elements. You work collaboratively with the landscape designer to bring the design from concept to reality. You would teach those on your team what and how to landscape. You would take responsibility for the final product of your team's work.

WHAT WE ARE LOOKING FOR

- Someone with experience creating beauty in a natural built environment
- A detail-oriented individual who is committed to excellence
- Someone who enjoys working hard in a team environment
- Someone who has or can get a Commercial Driver's License

WHAT WE OFFER

- A fast-paced, friendly, and energetic work environment
- A chance to work with great people on great properties
- A wage consistent with one's ability and experience
- Health Insurance, vacation pay and other benefits
