

LANDSCAPE DESIGNER

Land Escapes Inc. is seeking someone to assist with computer landscape designs. This would be a seasonal / very part-time position based on when we have designs that need to be done. Pay will be a flat rate per design (once completed and approved by client and supervisor).

There is potential for additional office work and/or picking up hours with our landscape crew or holiday decorating crew if interested and needed.

REQUIRED SKILLS & EXPERIENCE:

- At least 1-2 years experience with horticulture or landscaping (plant specific, not mowing).
- Good knowledge and understanding of a wide variety of plants (perennials, shrubs, trees).
- Computer experience
- At least 1 year landscape design experience either through a prior employer or college landscape design class.
- Some amount of computer based landscape design experience.
- Some amount of graphic design experience.
- Ability to learn and retain new information about plants and landscape materials.
- Ability to read and apply information such as specific client requests, measurements, spacing, sun exposure, watering needs, and other environmental factors that may impact the design.
- Use creativity to create aesthetically pleasing and functional landscapes.
- Have good communication skills.
- Be able to review and implement changes as requested by client or supervisor.
- Ability to research plants and related topics to further your knowledge.
- Self-reliant.

PREFERRED EXPERIENCE:

- Experience using PRO-Landscape Design software, specifically 3D Image design (this is the program we will be using).
